SmartStream Technologies announced this Tuesday that it has appointed Victoria Harverson to its sales team in order to strengthen its presence in Southeast Asia and Hong Kong.

SmartStream is a financial Transaction Lifecycle Management (TLM<sup>®</sup>) solutions provider. Following the appointment, Harverson joins the company's sales team in its regional head office based in Singapore.

In her new role, Harverson reports to Radha Pillay, Head of Sales Apac. She will be working with the local team in order to implement account management best practices. Harverson will also be responsible for driving and maintaining new opportunities as the company adopts digital strategies within the Asian customer base, the company said in its statement.

Commenting on the appointment, Radha Pillay, Head of Sales Apac, said in the article: "SmartStream is recognised as being a highly innovative firm, and as with all our solutions, we are committed to ensuring we are here to help our customers in their digitisation and automation journey's. Victoria is a seasoned sales professional and with all her expertise, she will be a great addition to our team".

## | Harverson joins SmartStream from Duco

Harverson joins [the transaction solutions provider](#) from Duco, where she worked for four and a half year, most recently serving as the Business Development Director and Head of Sales Apac.

During her career, Harverson has also worked at [smartTrade Technologies](#), where she was the Business Development Executive of the EMEA region, her LinkedIn states. Overall, she brings more than a decade's worth of experience delivering enterprise solutions to major banks and buy-side institutions across the globe.

"I am pleased to be joining such an experienced team that have a deep understanding of operations technology within financial services alongside such a wide range of enterprise grade solutions to support them," Harverson added in the statement.
