

SmartStream Connect South Africa 2025

YOUR EXCLUSIVE INVITATION

Shaping the Future of Operations and Shared Infrastructure in South Africa's Capital Markets

As transaction volumes continue to rise, the need for efficient, scalable, and resilient operations has never been greater. This exclusive half-day event explores how South Africa's capital markets are adapting to regulatory shifts and new standards like ISO 20022. Industry leaders will discuss the role of shared infrastructure, automation, and AI in streamlining operations, managing complexity, and enhancing decision-making. With a focus on real-world applications, attendees will gain practical insights into optimising processes and driving sustainable growth in an increasingly digital and interconnected financial landscape.
